C 2109C 200mm (8") 100V 5W Twin Cone Driver

C 2109C Twin Cone Public Address Driver

- ✓ Excellent speech intelligibility.
- ✓ High SPL output.
- ✓ Offset transformer mounting for installations with limited recess space.
- ✓ High quality speaker driver developed for BGM & paging applications.
- ✓ 5 year warranty.

Application

C 2109C is a standard speaker & 100V transformer combination designed for general public address, BGM & paging installations. The offset transformer mounting allows mounting in ceilings with limited recess space.

About Redback® Speaker Drivers

Each custom designed speaker and transformer combination has been specifically engineered to ensure a wide frequency range and dispersion angle, plus a high sound pressure level (SPL) ensuring excellent music and speech intelligibility; which is critical for emergency paging applications.

Each transformer is fitted with multiple power settings which are user selectable via taps on the transformer.

Manufacturing & Performance

Redback® drivers are engineered and manufactured to stringent specifications ensuring maximum reliability under all operating conditions. Each driver has a power rating well above the max tapping of the transformer, ensuring reliable operation and excellent longevity. A strict quality control procedure is employed during every step of the manufacturing process. Finally, every finished speaker is 100% QC checked prior to shipping.

Installation Guidelines

The C 2109C is fitted with a 2 way wire protect screw terminal block.

To attach the driver to a speaker grille use C 0835 grille fixing clips. For installation in gypsum or plasterboard ceilings use C 0825 Gypsee® screws. See "additional installation accessories" over the page.
